

It's What Ya Don't Say

Bob Welch

God, it's cold here in your arms
Your silence is so loud
We'll make some talk to cover up
But you can't drown it out

It's what you don't say
When you hold me tight
It's what you don't say
When you can't stay the night
It's what you leave out
That I'm talkin' about
When you hold me deep inside
Your eyes don't even close
You fake a smile, you kill the lights
Do you think it doesn't show

It's what you don't say
When you hold me tight
It's what you don't say
When you can't stay the night
It's what you leave out
That I'm talkin' about
When you hold me deep inside
Your eyes don't even close
You fake a smile, you kill the lights
Do you think it doesn't show

Oh it's what you don't say
Remember how it used to be
You would love me all night long
But if you can't work out your love for me
Baby, at least admit it's gone

It's what you don't say
When you hold me tight
It's what you don't say
When you can't stay the night
It's what you leave out
That I'm talkin' about
When you hold me deep inside
Your eyes don't even close
You fake a smile, you kill the lights
Do you think it doesn't show

It's what you don't say
When you hold me tight
It's what you don't say
When you can't stay the night
It's what you leave out
That I'm talkin' about
When you hold me deep inside
Your eyes don't even close
You fake a smile, you kill the lights
Do you think it doesn't show

It's what you don't say
It it it it it it it's what you don't say
