Doom Walker

Bobaflex

Warning, warning
The planet earth is under attack
Run for your fucking lives

Now, now begins the invasion
Stay in attack formation
Blast every human in your sights
Rape this planet for its life

I am the conqueror of your species
Doom walker, of the galaxy
I will Destroy
I will Destroy
I will Destroy
I will Destroy
I am from another planet
You will never understand it
We are a race that likes to acquire things

Alien warlords come through a space warp
They swarm the cities and man is a refugee
Last chance, five pilots, stealth fighters
Armed with nukes to shoot the mother ship down

Fight! Are you ready to fight?
Die! Are you ready to die?
Here they come now!
Rape this planet for its life

I am the conqueror of your species
Doom walker, of the galaxy
I will Destroy
I will Destroy
I will Destroy
I will Destroy
I am from another planet
You will never understand it
We are a race that likes to acquire things

I can see your face in the clouds
So we moved deep, under the ground
