Hate You

Bobaflex

I remember on the day I signed
You were talking on the TV screen
Before I knew that all you told was lies
I didn't know that you were dragging me

Dang amour
My time spent in the desert seem to warp my mind
Now you're the one that I despise

I hate you more than I hate myself
Cuz you're the one who
Marched yourself straight into hell
And we're never coming back

God knows, we cried
For everyone who died
God knows, we tried
Still asking ourselves why

I don't know what we were fighting for
But I know that they don't want us here
I don't think I like this world no more
I got the feeling it's been dragging me

Dang amour
My time spent in the desert seem to warp my mind
Now you're the one that I despise

I hate you more than I hate myself
Cuz you're the one who
Marched yourself straight into hell
And we're never coming back

God knows, we cried
For everyone who died
God knows, we tried
Still asking ourselves why

Don't care, don't care anymore, don't care
Don't care anymore, don't care
I don't care anymore, don't care

I don't care anymore!

I hate you more than I hate myself
Cuz you're the one who
Marched yourself straight into hell
And we're never coming back

God knows, we cried
For everyone who died
God knows, we tried
Still asking ourselves why
