

Start a War

Bobaflex

It's time to start a war
Enslave the children
All in the name of God
They're making trillions

I won't choke to death on the light
We fight
Nobody gets out alive

They're gonna kill us all
New world agenda
And when the hammer falls
Never surrender

I won't choke to death on the light
We fight
Nobody gets out alive

Should we hold hands
Should we cry
They've dropped the bomb
It has been done
We're all gonna die
There's a fire in the sky
Put down your guns
Nowhere to run
We're all gonna die
We're all gonna die

And it's the last time
We choke to death on the light
There ain't no good guys
Nobody gets out alive

Should we hold hands
Should we cry
They've dropped the bomb
It has been done
We're all gonna die
There's a fire in the sky
Put down your guns
Nowhere to run
We're all gonna die

Should we hold hands
Should we cry
They've dropped the bomb
It has been done
We're all gonna die
There's a fire in the sky
Put down your guns
Nowhere to run
We're all gonna die
