

Strangle You

Bobaflex

You think I'm innocent when you lie like a bitch
I just wanna erase your face
I'm trying to be a gentleman
Lets begin again
Tell me the truth this time
You think I'm listening?
Baby cash a check that my noose is around your neck
Your not a woman, not even my lover
Just a whore undercover, try to blame it your mother

You know I love you but you had to go and take it too far
Seems like your getting off when your breaking my heart
Every time I see your face
I wanna strangle you

I need to get away from you
I don't need, I don't need to do this tonight
I need to get away from you
I don't need, I don't need this shit in my life
I wanna strangle you
I wanna strangle you

I used to feel for you, but now it's kinda funny that I'm watching your face
turn blue
I'm tired of playing the nice guy
Your caught, but nice try
Payback's a bitch tonight!
I can see you, running from a demon your cryin and a screamin
If this is the man I am
I'm still a father! so I called my little brother
I said, "ya gotta pick me up before I kill my baby's mother!"

You know I love you but you had to go and take it too far
Seems like your getting off when your breaking my heart
Every time I see your face
I wanna strangle you

You know I love you but you had to go and take it too far
Seems like your getting off when your breaking my heart
Every time I see your face
I wanna strangle you

I need to get away from you
I don't need, I don't need to do this tonight
I need to get away from you
I don't need, I don't need this shit in my life
I wanna strangle you
I wanna strangle you

I wanna strangle you
I wanna strangle you
I wanna strangle you
I wanna strangle you
