

## Turn Me On

Bobaflex

You keep lying to yourself  
Can't believe I've seen you with somebody else  
You keep talking in your sleep  
Trying to make sense of somebody else's dreams

Whispers in the dark  
Waiting on a spark  
The shadows in the stars

Oh-oh-oh-oh  
I can't believe that you said that I'm not the only one  
Oh-oh-oh-oh  
It's pain to see baby that you're not the only one  
But you still turn me on

You said you will never leave  
My heart is breaking I can barely breathe  
I can't do this on my own  
Last time we talk was on the telephone

Whispers in the dark  
Waiting on a spark  
The shadows in the stars

Oh-oh-oh-oh  
I can't believe that you said that I'm not the only one  
Oh-oh-oh-oh  
It's pain to see baby that you're not the only one  
But you still turn me on  
But you still turn me on  
But you still turn me on  
But you still turn me on

You keep lying to yourself  
Can't believe I've seen you with somebody else

Oh-oh-oh-oh  
I can't believe that you said that I'm not the only one  
Oh-oh-oh-oh  
It's pain to see baby that you're not the only one  
Oh-oh-oh-oh  
It's pain to see baby that you're not the only one  
But you still turn me on  
But you still turn me on  
But you still turn me on  
But you still turn me on  
But you still turn me on
