Fairy Tale

Bobby Bare

Fairy tale, fairy tale, tell me now a fairy tale
Tell me once again how it's me that you adore
And how we gonna live so happily for ever more.

Once upon a time not very long ago
The whole magic world was mine
You made me believe then that you loved me so
But that was once upon a time.

For you never loved me so you went away
My whole magic world fell in
That's when I found out you made up fairy tales
Better than the Brothers Grim.

Fairy tale, fairy tale, tell me now a fairy tale
Tell me once again how it's me that you adore
And how we gonna live so happily for ever more.

Wish you tell me what am I suppose to do
With a castle in the air
Filled with broken dreams that never can come true
Since you are no longer there.

Though I know you just don't love me anymore
Please help me to pretend
Take me in your arms the way you did before
And tell a fairy tale again.

Fairy tale, fairy tale, tell me now a fairy tale
Tell me once again how it's me that you adore
And how we gonna live so happily for ever more.

Fairy tale, fairy tale, tell me now a fairy tale
Tell me once again how it's me that you adore
And how we gonna live so happily for ever more...
