

Fellow Travelers

Bobby Bare

We all are fellow travelers
Sailing across the universe
Living aboard the good ship earth
We all are fellow travelers

My heart keeps hoping that someday
Some way we'll rise above
Look from the moon at the world below
And somehow know, with love

That we are fellow travelers
Sailing across the universe
Living aboard the good ship earth
We are all fellow travelers

And if we must journey together
Forever it's plain to see
How we'll depend on each other
Through all eternity

We are all fellow travelers
Sailing across the universe
Living aboard the good ship earth
We all are fellow travelers

We are all fellow travelers
Sailing across the universe
Living aboard the good ship earth
We are all fellow travelers
