

## Gotta Get Rid Of This Band

Bobby Bare

Oh, I gotta get rid of this band  
They're rockin' too hard for a country music man  
I preach 'em and I teach 'em but they don't understand  
I tell you folks I gotta get rid of this band.

Now that fella there on lead guitar he's a natural dude  
He never takes showers and just eats natural food  
And if you shared a room with him then friends I think you'd understand  
Just why I gotta get rid of this band.

Now my friend there on piano he been known to do some dope  
There's nothing he won't sniff or swallow or smoke  
And sometimes he's just too damn stoned to help me reach the street  
Oh, I gotta get rid of this band.

Those boys on bass and drums you know they're country through and through  
But they wanna wear makeup like them rock stars do  
But they smile at each other and sometimes they hold hands  
Too long on the road I gotta get rid of this band.

We got a honey talkin' pretty boy there on that steel guitar  
And the girls don't realize that I'm the star  
And when anybody interferes with my romantic plans  
They're gone I gotta get rid of this band.

Oh, I gotta get rid of this band  
They're rockin' too hard for a country music man  
I preach 'em and I teach 'em but they don't understand  
I tell you folks I gotta get rid of this band...
