

I've Been Rained on Too

Bobby Bare

If you're afraid to touch my hand it's all right I understand
All the changes you've been through I've been rained on too
You don't know you can be sure believe me I've been there before
Trusting me that's all you knew but I've been rained on too.

Like you I've really loved someone only to be walked upon
And by your lonely look I see you'd been rained on just like me
But I have made it through the storm so I know where you're coming from
I'll take special care of you I've been rained on too
I've been rained on too.
