

## Isn't That Just Like Love

Bobby Bare

It seems so easy  
To just fall in love with you  
Never intending to  
Isn't that just like love?

And we two that once were friends  
May never talk again  
It seems so sad within  
Isn't that just like love?

Friends stop me every day  
And ask me why you went away  
I just shake my head and say  
Isn't that just like love?

To leave me with nights to fill  
Knowing our love was still  
Knowing I always will  
Isn't that just like love?

And sure as my old heart will mend  
Someone will smile at me and then  
I may just do it all again  
Now, isn't that just like love?

Isn't that just like love?  
Isn't that just like love?...
