

## **She Is Gone**

**Bobby Bare**

She is gone but she was here  
And her presence is still heavy in the air  
What a taste of human love  
But she is gone and it don't matter anymore.

But I don't care she was mine  
Now her heart belongs to someone I don't know  
She is gone but she was here  
And my life will never be the same again.

Crossing dreams with our lives  
It was more than just a woman and a man  
It was love without the skies  
Now my life will never be the same again.

'Cause she is gone but she was here  
And her presence is still heavy in the air  
What a taste of human love  
But she is gone and it don't matter anymore.

She is gone but she was here...
