

So Good to So Bad

Bobby Bare

It goes from so good to so bad so soon
From so good to so bad so soon
Nobody told me so I never knew
It goes from so good to so bad so soon.

It goes from sunshine to shadows to rain
Goes from passion to pleasure to pain
From singing sweet love songs to crying the blues
From so good to so bad so soon.

It's started with words like forever
Went from always to sometime to never
From give me some lovin' to give me some boon
From so good to so bad so soon.

It goes from so good to so bad so soon
From so good to so bad so soon
If nobody told you it's time that you knew
It goes from so good to so bad so soon.

From so good to so bad so soon, so soon...
