

Take Some and Give Some

Bobby Bare

One more road I want to go down
One more rodeo
One more place that I haven't been
Where I always wanted to go
Well I ain't got a dollar in my old bluejeans
But I got a trouble free mind
'Cause I take some and I give some
And I leave some behind

One more dance and one more girl
One more pretty smile
One more drink with a good old friend
That I haven't seen for awhile
If you wake in the morning and you find me gone
Don't think I've been unkind
'Cause I take some and I give some

And I leave some behind

I'm riding high and I don't pay no dues
I know I don't have much
But I don't have much to lose

And there's one more beer and one more night
At one more county fair
And one more place that I want to see
Just to say that I've been there
Well I ain't gonna settle for a long long time
'Cause I ain't the settling kind
I just take some and I give some
And I leave some behind
Yeah I take some and I give some
And I leave some behind
