

Where Did It Go

Bobby Bare

It seemed like only yesterday that I was young and strong
Lots of time to say I'm sorry, I didn't mean to do you wrong
But now time is disappearing like jet streams in the sky
It all went by so fast I didn't see it pass me by

I'm wondering, where did it go
Where did it go
I only know that it's gone

Once somebody loved me, I know she really cared
One day I turned around and her love was not there
All my friends have left me here on my own
Tomorrow's looking iffy and yesterday's gone

I'm wondering, where did it go
Where did it go
I only know that it's gone

You know once I held the world
Right here in the palm of my hand
But it slipped through my fingers
Like a million grains of sand

Where did it go
Where did it go
God only know where it's gone, gone, gone
