

You Made a Believer Out of Me

Bobby Bare

Lovers yes, I guess I've had a few
I've played the game like lovers do in the night alone
Feelin's they never meant a thing to me
I never knew how love could be until you came along.

You made a believer out of me
I can see it I can feel it
You made a believer out of me
How could I believe that it's not true
After lovin' you.

Forever was just a word I used to say
Love was just a game I played that ended with the dawn
Funny with all the love that I've been through
Now I know till I met you I never loved at all.

You made a believer out of me
I can see it I can feel it
You made a believer out of me
How could I believe that it's not true
After lovin' you...
