

Honey Child

Bobby "Blue" Bland

Sometimes your love is just like honey
So sweet and wild, so sweet and wild
Sometimes your love is just like menthol

So cool and nice, so cool and nice
That's why I don't want no other lover
Nobody but you

Honey child, honey child

You got a funny little way
A way of teasing
Feels so right, yeah so right

You've got a way, such a way
Through the night, all through the night
That's why I don't want no other lovin'
Nobody but you

Honey child

You got a brand of lovin'
That sets my soul on fire
You got a brand of kissin'
That drives me wild
That's why I don't want no other lover

That's why
I don't want no other lover
That's why
I don't want no other lover

Say, that's why
I don't want no other lover
Say, that's why
I don't want no other lover, baby
