

Up And Down World

Bobby "Blue" Bland

you're up on your feet now baby
and you're leaving me all alone yeah
when you know that my nose
down to the ground and stone
your
since the day I've met you
but remember what goes around
also comes around too
cause it's up and down world
it's up and down world
lone and maybe cold sometimes
but it's up and down world

it maybe nice and warm today
tomorrow maybe drizzled and cold
sober the other day
but ... have waved and gone
but baby
and I'm glad that set you free
cause I know that sun
one day rise and shine for me
cause it's up and down world
it's up and down world
lone maybe cold
but it's up and down world

you are up on your feet now baby
then you're leaving me all alone yeah
when you know that my nose
down to the ground and stone
.....
since the day I've met you
but remember what goes around
also comes around too
cause it's up and down world
it's up and down world
lone and maybe cold
but it's up and down world

you know what
you may be up today and down tomorrow
cause it's up and down world
