Girl Next Door

Bobby Brown

This is crazy, I mean I meet the most beautiful girl Come to find out She lives right next door to me

I don't know what I'ma do This is rough on me, I just gotta I just gotta talk to somebody

Hey fellows, gather 'round Let me tell you 'bout a girl who's blowin' my mind She's really new in town Fresh an' lovely an' ever so fine

I said, "How do you do? There's never been another girl like you My heart just skips a beat Whenever you're near to me"

She lets me walk with her I thought it couldn't get any better But there was even more

I found out she's the girl next door I want to be with her forever more The girl next door, yeah I need to be with her

Now, since I've been with her I found my whole world is turnin' around She never rocks the boat Yes, she keeps it from runnin' aground

Sometimes I can't believe That she only wants to be with me It seems like such a crime Not to share such a lovely find

I never get too much I'm livin' every moment for her touch Because she lives next door Next to me, baby

Girl next door Girl next door Girl next door

Hey, yeah, yeah, now tell me, baby

What could she have in store, the girl next door? Her very essence, her presence, I do adore An' bein' this close is drivin' me wild I love her personality, her style, her smile

My life is bright once more again Our lives are hot, our souls will blend I love that girl more than all the world She's like priceless diamonds, cultured pearls

She took me by surprise right before my eyes She came to me like a vision on earth I didn't have to look, I didn't have to search

I'll never bore my girl next door Each other's body, we'll explore Our love will grow forever more

Girl next door She caught me peekin' Girl next door
