

A Dream

Bobby Caldwell

One day, some day
We may live in a world
Softer, gentler, kinder

Dreamers, dream on
You are our only hope
To be so much better

If you think this world is okay
I have to say, you haven't read the news
But where would we be without dreamers to dream
A dream

Keepers, keep on
Watching, guarding the Earth
Selfless, step fast, wiser

If you think this world is okay
I have to say, you haven't read the news
But where would we be without dreamers to dream
A dream
