

# China

**Bobby Caldwell**

I've traveled far  
Over the oceans  
Seen other worlds  
Only one girl  
Has my devotion

China my love  
I dream about you  
And I guess I've learned  
There's no return  
To life without you

Open your heart  
I know that you can  
You'll never find true love till you do  
China it's true

China I know  
You've been conditioned  
But on this night  
Maybe you might  
Forget your traditions

There must be love  
Somewhere inside you  
And you must confess  
Your happiness  
Has been denied you

Ten thousand miles  
Can't keep us apart  
I swear I will come back to you  
China I do

China your eyes  
Say you're believing  
All I want to do  
Is make love to you  
And not be dreaming

Repeat chorus
