

Dance With Me

Bobby Caldwell

If you're looking for a place to go
There's a club where every night there's a show
And a dancer I've seen
Who sings with the Latin band

I guarantee you'll be begging for more
Every time she graces the floor
I imagine a tango with her in my arms

Dance with me
I want you to dance with me
How long I have waited
And anticipated having you in my arms
Dance with me
I want you to dance with me
If it's just in my dreams
I want you to dance with me

If I could only catch her in between sets
Though that moment hasn't happened as yet
I have seen on break
With friends sitting at the bar
And I'll imagine that she gives me a glance
Then she asks me if I wanna' dance
As we're doing the "Mambo"
She melts in my arms

Dance with me
I want you to dance with me
How long I have waited
And anticipated having you in my arms
Dance with me
I want you to dance with me
If it's just in my dreams
I want you to dance with me

Dance with me
I want you to dance with me
How long I have waited
And anticipated all her beguiling charms
Dance with me
I want you to dance with me
If it's just in my dreams
I want you to dance with me

Dance with me
Dance with me
