

## Down For The Third Time

**Bobby Caldwell**

Left your mark  
In a distant past  
But somehow it's all gone now  
Good things can never last  
You are down for the third time  
And you spent your change  
Memories of your prime  
Make life seem so strange  
Through your life  
You've been well-to-do  
Times have changed  
And rearranged  
Now no one remembers you  
You are down for the third time  
And you spent your change  
Daddy won't mind  
When you rearrange your life
