

## Extra Mile

**Bobby Caldwell**

Even as the world goes insane  
And we're feeling the strain  
I'm committed to loving you  
Baby if your heart feels the same  
If you're still in the game  
Can we both agree on what we need to do

Got to go the extra mile  
And believe in what we know  
Doesn't matter what we run into  
Our love is true  
We'll make it through  
If we go the extra mile  
Give it better than our best  
Then our love will stand the test  
If we go the extra mile

Tell me why our love has to pay  
For the trials every day  
And I wonder how we can survive  
Little things that tear us apart  
Take a toll on our hearts  
If we're ever gonna keep our love alive

Got to go the extra mile  
And believe in what we know  
Doesn't matter what we run into  
Our love is true  
We'll make it through  
If we go the extra mile  
Keep it steady as she goes  
Staying on the path we chose

Can't put our trust in sexuality  
Even the strongest love can come undone so easily  
Just trust in me  
I know that we got to go the extra mile

Keep it steady as she goes  
Staying on the path we chose  
No matter what it takes  
We'll raise the stakes  
If we go the extra mile  
And believe in what we know  
Then our history will show  
That we went the extra mile

We've got to see love through  
It's you for me and me for you  
We're gonna last a while  
If we just go the extra mile  
We're gonna last a while  
If we just go the extra mile  
No matter what  
Can't put our trust in sexuality  
If we just go the extra mile  
We've got to see love through

It's you for me and me for you  
We're gonna last a while  
If we just go the extra mile  
Can't put our trust in sexuality  
If we just go the extra mile
