

In the Name of Love

Bobby Caldwell

How many times do we have to
Jump back in the fire
To discover what I know is true
That I only want to be with you

And how many times do we have
To break down to go higher
Maybe lovers have to fuss and fight
And the things they do can be so trite

Round and round we go
Kind of like a hurricane
Stormy winds may blow
We can take the weather
Everybody knows
Rhett and Scarlett did the same
We've got to remember
It's all in the name of love

Facing odds that pull us apart
Sometimes we end up
Breaking each others hearts
We've got to be strong
We said from the start
We're doing it all in the name of love

How many times have we managed
To hurt one another
Saying things we never meant to say
Getting hung up in the games we play
Are we ever gonna find our way

Round and round we go
Kind of like a hurricane
Stormy winds may blow
We can take the weather
Everybody knows
Rhett and Scarlett did the same
We've got to remember
It's all in the name of love

Facing odds that pull us apart
Sometimes we end up
Breaking each others hearts
We've got to be strong
We said from the start
We're doing it all in the name of love
