Never Loved Before

Bobby Caldwell

I used to think love was a game
Only meant for pleasure
And the world would turn for me

And meeting you has brought a change
The things I used to measure clearly
Don't matter to me

I have never loved before
I never knew the meaning
Till I saw your face
Now I can be sure
I guess it's safe to say
That I've never loved before
Darling not until today

Seems like the perfect love affair
The best I can remember
Never turned out right for me
That's why I never really cared
But now my feelings all betray me
Your lips slay me

I have never loved before
I never knew the meaning
Till I saw your face
Now I can be sure
I guess it's safe to say
That I've never loved before
Darling not until today
