

Saying Goodnight

Bobby Caldwell

Maybe it's true, I never found a love that would last
I did some things in the past that I can't undo
Darling, if you try to forget what you've heard
Nothing like this has occurred
Swear that it's true

Saying goodnight doesn't seem right
Maybe it's true that I'm a known pathological
Feeling is right, don't get uptight
This is no time for you to be psychological

Play out your hand, this is the time for romance
Girl if you just take a chance
Let me on through, on my command
You're gonna forget what you've heard
Nothing like this has occurred
Swear that it's true

Saying goodnight doesn't seem right
Maybe it's true that I'm a known pathological
Feeling is right, don't get uptight
This is no time for you to be psychological

Maybe it's true, I never found a love that would last
I did some things in the past that I can't undo
Darling, if you try to forget what you've heard
Nothing like this has occurred
Swear that it's true

Saying goodnight doesn't seem right
Maybe it's true that I'm a known pathological
Feeling is right, don't get uptight
This is no time for you to be psychological
