

You Belong to Me

Bobby Caldwell

Don't look now
But this good thing could go astray
And I can't watch you throw away
What was right from the start
You don't want to tear apart
What could be saved

Why can't you face
What was meant to take place in this life
Don't try to move
There's no way to improve
On a perfect design

It was meant to be, darling
You belong to me

How could you think that I would allow
Anything to divide us now
And it can't be denied
We could save what might have died
Your place is by my side, baby

It was meant to be
Darling, you belong to me
