

A World Without You

Bobby Darin

You know the dawn will give light
Just like it's always done
And the skies will give forth
With the warmth of the sun

And the earth will give life
To the sweet mornin' dew
But with all that they give
I still couldn't live in a world without you

In a world without you
Who would I turn to when I'm down
I have built my world around only you

And you... have spoiled me so bad
Lovin' me like you do
That no one could give a reason to live
In a world without you

In a world without you
Tell me who would I turn to when I'm down
I have built my world around only you

And you... have spoiled me so bad
Lovin' me like you do
That no one could give a reason to live
In a world without you
