

# All Nite Long

Bobby Darin

If you see me comin', baby, lift your window high  
If you see me comin', lift your window high  
And if you see me going, hang your head and cry

You've got a wail, got to roll all nite long  
Got to move, got to rock all nite long  
Got to roll, got to reel-a all nite long  
Got to reel like you feel-a all nite long

Got to love me, pretty baby, till the sun comes up at dawn  
Baby, you're so beautiful but you're gonna cry one day  
I said, "You're so beautiful but you're gonna cry one day"  
You're gonna feel so bad for-a treating me this way-a

You've got a wail got to roll all nite long  
Got to move, got to rock all nite long  
Got to roll, got to reel-a all nite long  
Got to reel what you feel-a all nite long

Got to love me pretty, baby  
Till the sun comes up at dawn

Forget your blues, let your love come tumbling down  
Forget your blues, let your love come tumbling down, down  
Have you heard the news, big loving Daddy's in town?

You got to roll, got to rock all nite long  
Got to move, got to wail-a all nite long  
Got to roll, got to reel-a all nite long  
Got to reel like you feel all nite long

Got to love me pretty baby  
Till the sun comes up at dawn  
You've got to love me pretty baby  
Till the sun comes up at dawn

You've got to love me pretty baby  
Till the sun comes up at dawn  
You've got to love me pretty baby  
Till the sun comes up at dawn
