

# All the Way Home

Bobby Darin

We walked slow and hand in hand  
All the way  
Stealin' kisses in the dark  
All the way  
Honey, I gotta hand it to you  
You made me wanna shout hallelujah!  
All the way, all the way home

We watched the moon and counted stars  
All the way  
We knew our love will go real far  
All the way  
And as we passed a tree ot two  
We carved our name and 'I love you'  
All the way, all the way home

With the great big moon above  
The scene was set for romance  
I said to myself, "Hot dog! This is my chance!"  
...  
...  
Oh gosh, oh geez  
My goodness, I felt so fine

She pressed her lips next to mine  
All the way  
I slipped that ring right on the finger  
All the way  
Cheak to cheak and hand in hand  
The happiest couple in the land  
All the way, all the way home

All the way, all the way home  
All the way, all the way home  
All the way, all the way home
