

# Now We're One

**Bobby Darin**

Now we're one and I love you so  
Hold me tight, never let me go  
Make the feeling run up my spine  
You know I'm yours and you are mine

Now that we are married, baby  
We don't have to worry  
Now we're one

Now we're one and you're my bride  
We don't have to run and hide  
Every time I want to hold your hand  
To be afraid someone won't understand

Now that we are married, baby  
We don't have to worry  
Now we're one

Well, I wanna jump to the moon and yell out loud  
I feel like I'm walking on an eighteenth cloud  
We're gonna put all our fears and cares behind  
Ever since we heard the wedding bells chime

Now we're one and I love you so  
Hold me tight, never let me go  
Make the feeling run up my spine  
You know I'm yours and you are mine

Now that we are married, baby  
We don't have to worry  
Now we're one

I wanna jump to the moon and yell out loud  
I feel like I'm walking on an eighteenth cloud  
We're put all our fears and cares behind  
Ever since we heard the wedding bells chime

Now we're one and you're my bride  
We don't have to run and hide  
Every time I want to hold your hand  
To be afraid someone won't understand

Now that we are married, baby  
We don't have to worry  
Now we're one

Now we're one, now we're one  
Now we're one, now we're one
