

# When I Get Home

**Bobby Darin**

There's gonna be good times, baby  
Just wait and see  
Music and parties and laughter  
Like it used to be

'Cause I'm comin' back  
To make us a life of our own  
When I get home  
Umm... when I get home... baby

Yeah... 5,000 miles from you, baby  
Is far I know  
But... just remember this, baby  
Wherever you go

Now I'm gonna love you  
And never leave you alone  
When I get home  
Umm... when I get home... baby

When I get home  
You're gonna wake up  
And find there's a new kind of dawn... baby

When I get home  
I'm gonna make up  
For all the time I've been gone  
Baby, baby, if you love me

You'll hang on a little bit longer  
And we'll see it through  
There ain't no nothin'  
Can stop me from reachin' you

And I'm gonna give you a love  
Like you've never known  
When I get home  
Umm... when I get home... baby

When I get home... baby...
