

# You Just Don't Know

**Bobby Darin**

You just don't know, little girl  
How much I love you  
You just don't know  
The way I feel inside

I love you so, little girl  
I just can't tell you  
You are my life  
You're my love  
You're my pride

Before you came  
My life was just routine  
You taught me  
What a love could mean

You hurt me so, little girl  
If you should leave me  
I need you so, little girl  
You just don't know

Sing it to me sweetly now...

You hurt me so, little girl  
If you should leave me  
I need you so, little girl  
You just don't know
