You Just Don't Know

Bobby Darin

You just don't know, little girl How much I love you You just don't know The way I feel inside

I love you so, little girl
I just can't tell you
You are my life
You're my love
You're my pride

Before you came
My life was just routine
You taught me
What a love could mean

You hurt me so, little girl If you should leave me I need you so, little girl You just don't know

Sing it to me sweetly now...

You hurt me so, little girl
If you should leave me
I need you so, little girl
You just don't know
