

# Come Back Home

**Bobby Goldsboro**

There's a man I've read about  
And they say he lives forever  
When the world was filled with sin  
He came and brought the world together

Then he left us on our own  
Now it's time again  
For him to come back home

'Cause this world is full of hate  
He's got to come before it's too late  
'Cause we can't make it on our own  
And it's time again for him  
To come back home

CHORUS

Come back home  
Make the streams  
Flow to the valleys  
And take away the clouds  
That hide the sun  
Come back home  
Teach each man to love his neighbor  
And give us one more chance  
To right the wrong we've done  
If only for the children  
Come back home

You gave us trees  
We cut them down  
Your sky of blue  
We've made it hazy

Your lakes and streams  
They're dark and cold  
And it's time again  
For you to come back home

Repeat CHORUS

'Cause our time is running out  
And the world is slowly dying  
The things we've done  
Have all gone wrong  
And it's time again for you  
To come back home

Repeat CHORUS

Mmm mmm mmm...

Yes, it's time again  
For you to come back home
