

## **Far Away Heart**

**Bobby Helms**

Don't let it happen don't find somebody new  
Don't let the loneliness make a fool of you  
Don't be tempted by the moonlight while we are apart  
Just remember you're in love with a far away heart

A far away heart but it's true  
With only lonely duties hadn't taken me from you  
And sent me far across the seas away from you sweetheart  
But have no fear you're always here in this far away heart

I'm so happy when you write me but when I read it through  
I can see some tears have fallen on the letter too  
Don't cry darling think about when our love got its start  
That old love light's still burning bright in this far away heart

A far away heart but it's true...
