Guess We Thought the World Would End

Bobby Helms

Guess we thought the world would end

We never thought of the future
The past we didn't let in
Time stood still while I held you
Guess we thought the world would end

All of it was wrong and we knew it
We didn't try to pretend
We only lived for the moment
Guess we thought the world would end

We never thought of the heartaches
We'd bring to somebody else
Blinded by love for each other
We only thought of ourselves

You belong to another
We'll never love again
For a moment I held you
Guess we thought the world would end

Time stood still while I held you
Guess we thought the world would end
