

You're the One

Bobby Helms

(You're the only one)

I saw you standing there the sunlight in your hair
I love you then and there you're the one
I saw you look my way that bright and sunny day
The heavens heard me say you're the one

You're the one the only one
You're brighter fun than the summer sun
Such a pity such a shame I didn't even know your name
But then you smiled at me your smile was one to see
My heart and I agreed you're the one

But then you smiled at me your smile was one to see
My heart and I agreed you're the one
(You're the only one)
