

## Chicken Heads

Bobby Rush

daddy told me on his dying bed  
give up your heart or don't you lose your head  
you come along girl, what did i do?  
i lost my heart and my head went too

little girl little girl you sure can cook  
little girl little girl you you've got me hooked  
when you cook that chicken save me the head  
i should be working but i'm home in bed

i'm thinking about you  
i'm dreaming about you  
love that gal  
love them chicken heads you

without your love i just cant go on  
the feelings i have for you is much too strong

let me in  
let me in  
let me in

my love for you so doggone strong  
like the mississippi river rolls on and on  
if loving you was doggone crime  
id be sitting in jail done flat nine-nine

i'm thinking about you  
i'm dreaming about you  
i love that gal  
i love them chicken heads too

without your love i just cant go on  
all the feelings i have for you are too doggone strong  
let me in  
let me in  
let me in

love that gal  
love them chicken heads too
