

Come Touch Me

Bobby V

It's one of those nights girl
You know just what I need I don't have to spell it out you bring
out the freak in me ooh something
Terrible I'm getting sweaty right now so
Please come touch me (yeah)
I need it right now so do what you do and please me (alright) kiss
me right there baby nice and slow
The door will be unlocked girl
There's no need for a key just be looking real sexy can't wait
to feel your smooth skin Coco brown
With pretty feey ooh you fulfill my needs
How do you do that there girl somebody taught you well you're just
like a ball player you bounce it
Every where your game is so tight and you bless me every night
with the magic that you do, that you do
(baby do that thing)
