Bobby V

Stop playing with the cookie
Gone give it to me, girl stop frontin you
Know I really want it
Girl I need a piece of that cookie yeah you
You say you don't know me
I'ma make you know me
I'm so in to you
I'm so in to you

I'm chasing you like a roadrunner
Call me coyote, I'ma come get you
You over there say you call me later
I'm over here I want that cookie baby

I just wanna be alone with you
You always come around with your girlfriend
Know it's goin down if we one on one
Playing all these games with me just for fun

You know I been waiting for ya flavor
Chocolate chip, vanilla, coconut you're a lifesaver
Yeah
I been waiting on you. I know you want me too
Know you gotta prove your point to ya girls
But I don't give a damn I'ma break that curse

Stop playing with the cookie
Gone give it to me, girl stop frontin you
Know I really want it
Girl I need a piece of that cookie yeah you
You say you don't know, I'ma make you know me
I'm so in to you
I'm so in to you

She only see me in the daylight
When I hit her up she be bout that night life
Call herself a model
You might catch her in a Justin Beiber video
You might think you can change her but no
She don't know no better
But you know better it don't matter cause you still want her
But you can't have her

You know I been waiting for ya flavor
Chocolate chip, vanilla, coconut you're a lifesaver
Yeah
I been waiting on you. I know you want me too
Know you gotta prove your point to ya girls
But I don't give a damn I'ma break that curse

Stop playing with the cookie
Gone give it to me, girl stop frontin you
Know I really want it
Girl I need a piece of that cookie yeah you
You say you don't know, I'ma make you know me
I'm so in to you
I'm so in to you
