Thoroughbred  
You can tremble  
Snoop Dogg on the platter  
Small sample  
Hors d'oeuvre's, big words  
G7's, big birds (wow)  
Do thangs, you never done (never done)  
Fun girl, fun guy, lets have fun (ayy, ayy)  
No need to run that  
You can tell ya girlfriends

Mona Lisa's got nothing on you  
Perfect picture, no filter on you  
Girl you know that my style is complete  
You be trippin' 'cause you just a tease  
You know this is my city fo' sho'  
DJ shoutout when I walk through the door  
You be bouncin' that thing while on your knees  
There's so much game that you cannot believe  
(yeaahh)

I can take you out, cruise on the yacht (yacht)  
Seven figure nigga, jewels with the drop top  
Picture that (uh huh)  
Picture that (uh huh)  
I know there's levels to the game girl, that's why I count  
I'm the one you should be checking for (what's up)  
I won't rush (Uh Uh)  
A Little piece will do

All I need is a 'lil bit  
Not a lot just a 'lil bit (yeah)  
Take it off for me real quick  
Sneak peek, let me get a grip  
All I need is a 'lil bit  
Baby girl, just a 'lil bit (yeah)  
Take it off for me real quick  
Sneak peek, let me get a grip

300,000 be following you  
All these girls in here be bowing to you  
You fill them cups with them full double d's  
You got 'em drinkin' that flat tummy tea  
Wish I were your shadow following you  
When you wake up I be right in your room  
In the shower where you bend over clean  
It will be sittin' right there for me  
(Ayyy yeaahh)

My time was small, but through it all  
She had a ball, she ain't want a lotta dick  
She just want a 'lil bit  
Gave her what she asked for  
That's what I got the cash for (money money)  
Now truly I am  
I get what I gotta get, like Uncle Sam  
No distortion, begging or forcin' (forcin')  
And I can give it to ya, in a small portion

All I need is a 'lil bit  
Not a lot just a 'lil bit  
Take it off for me real quick  
Sneak peek, let me get a grip
