You're Not Alone

Bobby V

Such a perfect love
He had your heart wide open
He had you flying high
In the beginning
Then eventually
The perfect picture faded
And now you wanna run away
I feel your pain

Because I know he broke you heart
Left you lonely in the dark
But im here if you need me
Someone you can talk to
He didn't care about your heart
Left you lonely in the dark
But im here if you need me
Ooh baby you're not alone
No no no no

Im here if you need me
Ooh baby you're not alone

Such a lonely place
I know your heart is broken
Don't know which way to turn
Until you learn
You got a friend in me
I'm just here to listen
You can open up to me
I won't judge you cause

I know he broke your heart
Left you lonely in the dark
But im here if you need me
Someone you can talk to
He didn't care about your heart
Left you lonely in the dark
But im here if you need me
Ooh baby you're not alone
No no no no ooh
I'm here if you need me
Ooh baby you are not alone

[bridge:]
Just give me a chance to talk to you
Maybe I can ease the pain
Oh he couldn't see you're so incredible,
Extraordinary
Just take my hand cause
Its gonna be alright girl, its gonna be alright
Its gonna be alright girl
If you give yourself some time to heal
Its gonna be alright girl (take your time)
Its gonna be alright (take your time)
Cause I know

Because I know he broke you heart

Left you lonely in the dark
But im here if you need me
Someone you can talk to
He didn't care about your heart
Left you lonely in the dark
But im here if you need me
Ooh baby you're not alone
No no no no

Its gonna be alright girl, its gonna be alright
Its gonna be alright girl
If you give yourself some time to heal (take your time)
Its gonna be alright girl (take your time)
Its gonna be alright (take your time)
You're not alone
