

Buddy's Song

Bobby Vee

Blue blue days, long black nights
Lonesome tears you're gonna cry for me
Little baby
You'd better start baby
And leave

I think it over before you leave
I got the love, that kind you need
Little baby
You'd better start baby
And leave

I'll rave on with the things you say
You say you're gonna leave but that'll be the day
Maybe baby, you don't know
I left Peggy Sue a long time ago

She's the girl on my mind
Everyday, all the time
Little baby
You'd better start baby
And leave

I'll rave on with those things you say
You say you're gonna leave but that'll be the day
Maybe baby, you don't know
I left Peggy Sue, a long time ago

She's the girl on my mind
Everyday, all the time
Little baby
You'd better start baby
And leave

Maybe baby
You'd better start baby
And leave
