Ginger (Ginger, Ginger)
Ginger (Ginger, Ginger)

Ginger was a girl who took my heart
Ginger was a girl who tore my dreams all apart
Ginger was everything that life and love could bring
But she didn't love me

Ginger was a girl who made me sigh
How could I know a girl so sweet could lie
Ginger was everything that life and love could bring
But she didn't love me

Ginger was everything that life and love could bring
But she didn't love me

Ginger made me think I was the one
How could I know that she was just havin' fun
Ginger was everything that life and love could bring
But she didn't love me
