

Not Like It Was with You

Bobby Vee

You may see me and think that I'm happy
'Cause I'm out with somebody new
I may make believe she's everything I need
But it's not like it was with you

If I'm always the life of the party
And it looks like my heartaches are few
You may think I have found
What makes the world go 'round
But it's not like it was with you

Not like it was holding you
I tried forgetting
What else could I do

Please believe me, looks are deceiving
And so often a smile hides the blues
Take a second look at me
And you are bound to see
That it's not like it was with you

No, it's not like it was with you
