

# Remember Me Huh

**Bobby Vee**

Kiss me goodbye, then walk on right out of my life  
Leavin' me to wonder why life is so unkind  
Don't think I'd try to keep you by beggin' you please  
I won't get down on my knees is all I'm askin' at this time

Remember me, huh, the way I walk  
Remember me, huh, and how I talk  
And if I ask you to remember all the promises you made  
No sir, uh-huh, just remember me, huh

I understand it, like you were hopin' I would  
You think it's time that you should be movin' on  
It's not as if you planned it, some things just happen that way  
Go on, my darlin', and play, but don't forget me though I'm gone

Remember me, huh, the times we shared  
Remember me, huh, and how I cared  
And if I ask you to remember that you broke my heart today  
No sir, uh-huh, just remember me, huh
