

## What Else Is New

**Bobby Vee**

Besides the boy who is standing with you  
What else is new with you  
With the exception of you leavin' me  
Nothing is new with me

I take it back, some things are new  
Like doin' things without you  
Like bein' alone every night  
And knowin' nothin's gonna work out right

Besides the boy who is standing with you  
What else is new with you  
What else is new with you  
What else is new with you
