

Always, Always (Yesterday's Love Song)

Bobby Vinton

And now the pain begins, as violins play
A love song, from yesterday
(Always, always, I will love you always)

Baby, stay with me
For you know, it's true, I will always stay in love, with you
(Always, always, I will love you always)

Without your, sweet love, what would my, heart do?
For I'll always be, in love with you (For I'll always be in love
e)
But always can sometimes mean never, when you're young
And in love like she was young, and in love with me
(Always, always, love you always)
For I'll always be in love with you (For I'll always be in love
)

And now the pain begins
As violins play, this love song, from yesterday
This love song
From yesterday (Always, always, I will love you always) yesterd
ay
(Always, always, I will love you always)
(Always, always)
